ABOUT THE SONG

Devolver is a hard hitting rock single built on jagged guitars, dark energy, and a defiant vocal performance. The song leans into tension, swagger, and impact, pairing aggressive sonics with a hook driven chorus designed to hit hard and stay with the listener.
It introduces the heavier side of FOUST with a sound that feels raw, forceful, and built for loud speakers.

BAND BIO

FOUST is the hard rock project of Nashville songwriter, producer, and artist Christopher Foust. Blending heavy riffs, sharp hooks, and a gritty modern rock edge, the project draws from classic hard rock attitude and a darker contemporary energy. FOUST is built for listeners who want rock that feels direct, loud, and unapologetic.
